JUN 14 1985

Mr. James L. Sparks
Environmental Technologist
Ethyl Petroleum Additives
Sauget, Illinois 62201

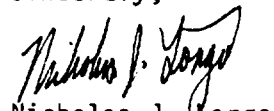

Dear Mr. Sparks:

This letter is in response to your April 26, 1985, letter to Dan Hopkins in regards to the asphalting of the small area around Unit 280.

Permission to proceed with the project outlined in the letter is granted. Construction west of grid line 600E should be limited to as little area as possible. Under no circumstances should the ditch north of the area be crossed.

Please feel free to contact me at (312) 886-6541 should you have any problems.

Sincerely,

Nicholas J. Longo
Hydrologist
